## The Aqua Technics Pools story

The purchase of your very own swimming pool is an exciting time! A cool-off in summer, recreation for the kids and poolside barbecues have infinite appeal, yet with so many companies to choose from, how can you be sure you are getting the very best pool for your investment?

### LOOK NO FURTHER

Aqua Technics Pools has been manufacturing award-winning fibreglass pools since 1976. Right from day one, we knew that if we wanted to be the leading swimming pool manufacturer in Australia, we also had to lead the way with product development and technology. So we began burning the midnight oil researching new manufacturing methods and materials.

### AND WE HAVE BEEN EVER SINCE

That's why Aqua Technics Pools has the best range of technologically advanced, award-winning swimming pools in Australia. You can rest assured your pool has been built to Australian Standard 1838:2021 under license number BMP 520101, has patented Graphene Nano-Tech® for exceptional strength, includes an Extended Lifetime Structural Warranty and has patented Pool ColourGuard® protection, with brilliant colour and superior colour retention.

We stand behind our pools so you can take the plunge with confidence, knowing that you have invested in the very best swimming pool available – a pool built stronger to last longer from the team at Aqua Technics Pools.

## WHAT SETS US APART from the rest

### GRAPHENE NANO TECHNOLOGY

Revolutionary patented process infusing graphene nano technology into every Aqua Technics pool. Built like no other, a Graphene Nano-Tech® pool is our strongest pool ever.

### SUPERIOR COLOUR RETENTION

Aqua Technics pools have patented Pool ColourGuard® surface technology, which resists the effects of UV rays and chemicals, offering advanced colour retention.

### QUALITY ASSURED

Certified to build to AS/NZS 1838:2021 under license BMP 520101. We are measured and tested by an authorised, independent auditor. Anyone can say they build to the Standard. For your peace of mind always ask for a license number. We also comply to the AS/NZS ISO 9001 Quality System.

### SUPERIOR STRENGTH

Full sized structural ribs, fully supported steps and bench seating and a wider edge beam mean the strength is built into the pool. New high strength fibreglass produces a stronger, stiffer pool.

### LIFETIME WARRANTY

Our Extended Lifetime Structural Warranty is our commitment to providing extended warranties above those standard in the SPASA contract.

### PRECISION MOULDS

New designs are built to exacting tolerances. The edge beams are true, the shapes geometrically perfect and the surface finish is without peer.

### SUPERIOR MATERIALS

All pools are manufactured using high performance, corrosion resistant, eco-friendly fibreglass with improved strength and stiffness. Our onsite gelcoat manufacturing facility means daily batching of materials for a better product. Only specialty materials are used - no general purpose products.

## Purpose built manufacturing facility

Our world-class production facility has been purpose-built for the manufacture of fibreglass swimming pools. Here we can build a technologically superior product of the highest quality.

Each of our pools is manufactured in accordance with a Quality Management System as per the requirements of International Standard ISO 9001 and supplied to comply with AS/NZS 1838:2021 under license number BMP 520101. Obtaining this accreditation means we are measured and tested by an authorised, independent auditor and is not easily achieved. Any pool builder can say they build to, or better than, the Australian Standard. For your peace of mind, always ask for a license number.

The strength of our pools is backed by an our extended warranties, which go above those standard in the SPASA contract.

### BUILT LIKE NO OTHER

## Why we build pools with 200mm edge beams

The design of the 200mm edge beam means the strength is engineered into the pool, making it structurally sound all by itself. Secondary engineering works are not required because the pool structure is built stronger and will last longer than any other.

Along with our state-of-the-art, purpose built manufacturing facility, we can proudly boast to having our own in-house raw materials production division. This allows us to freshly batch our raw materials on a daily basis, which is extremely important in order to produce a superior quality product.

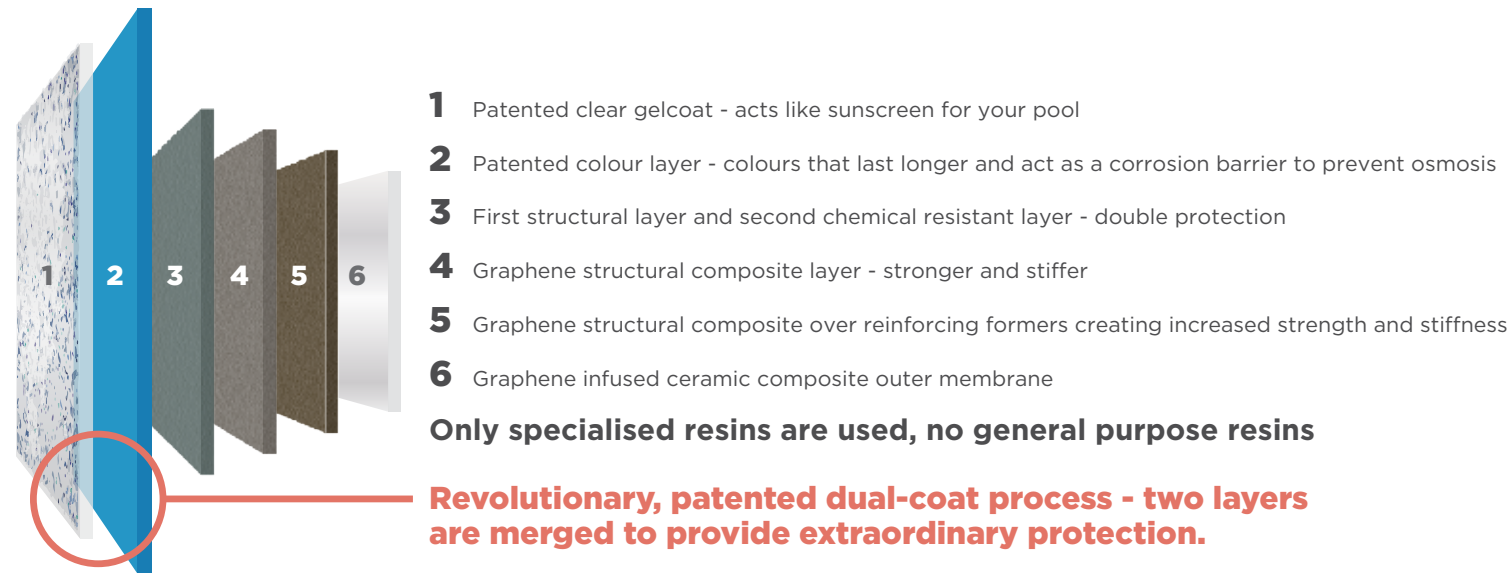

We have been building fibreglass pools for over 49 years so you can trust we have the knowledge and expertise to build the best swimming pool available today. As leaders in pool technology and development, we ensure that every Aqua Technics pool is superior in every way.

We have been a family owned and operated company since we first began. Many happy memories are created in your backyard pool so it's only natural that a successful swimming pool company should be a family business. We pride ourselves on having the best range of designs, colours and surface finishes. Whether you are looking for a design for fun, relaxation, exercise or all three, we have the perfect pool for you.

# Pool ColourGuard® technology - every layer matters

Exclusive to Aqua Technics, Pool ColourGuard® is the only patented dual-surface protection system for fibreglass pools world-wide. The clear layer protects the colour layer and acts like sunscreen for your pool, protecting it from colour loss and weathering. Pools with a simple one coat application do not provide protection for the colour.

- We dare you to compare the benefits:
- Resists the effects of UV rays and chemicals
  - Pool colour that looks better and last longer
  - High gloss finish never before seen on swimming pools
  - The only pool surface protection system with a Product Excellence Award

**Beware of imitations. Only genuine Pool ColourGuard® can offer you these benefits.**

When only the best will do - the world's patented dual-coat surface protection system for fibreglass pools

Every effort has been made to represent true colours, however variations may occur as part of the printing process. We recommend viewing colour samples before making your final selection. Actual colours may vary slightly due to the use of multimedia particles and spray patterns. Each swimming pool is individually crafted to your requirements. The final product may be subject to a colour variation of +/- 15% due to the climatic conditions and the manufacturing process.

## Ground-breaking Graphene Nano-Tech®

### INNOVATIVE TECHNOLOGY IN FIBREGLASS POOLS

Graphene Nano-Tech® is a revolutionary process infusing graphene nano technology in every Aqua Technics pool. Over 4 years of research and development has been carried out to incorporate graphene into the structure of our pools, creating a totally new patented construction process that is the next generation of fibreglass pool technology.

#### 30% STRONGER

- Graphene is over 200 times stronger than steel and stronger than titanium, giving you our strongest pool ever
- Increased strength and rigidity of the pool's structure
- Higher flexural strength

#### 30% LIGHTER

- Graphene is surprisingly light, giving our pools exceptional strength without added weight
- Our new technology reduces weight while improving rigidity and flexural strength
- Pools are stronger without being heavier
- Lighter for transport and crane lifts

#### HIGHER RESISTANCE

- A Graphene Nano-Tech® pool has a higher resistance to water and moisture transpiration and chemicals
- Increased laminate durability
- Improved corrosion barrier

## Award Winning **DESIGNS**

Aqua Technics is Australia's most awarded swimming pool company, having received numerous local, national and international Awards of Excellence. We have over 25 international awards - proof that the quality of our pools is recognised the world over.

Saint-Remy - PCG Platinum

# Resort **SERIES**

Create your own backyard sanctuary and relax poolside on warm summer nights with these indulgent designs.

 <p><b>Saint-Remy</b> External 8m x 4m Internal 7.6m x 3.6m Depth 1.32m to 1.96m</p>	 <p><b>Saint-Louis</b> External 9.9m x 4.4m Internal 9.5m x 4m Depth 1.37m to 2m</p>	 <p><b>Saint-Grande</b> External 11.88m x 4.85m Internal 11.48m x 4.45m Depth 1.37m to 1.96m</p>	 <p><b>Bedarra</b> External 7.9m x 4.2m Internal 7.5m x 3.8m Depth 1.3m to 1.7m</p>	 <p><b>Hayman</b> External 8.9m x 4.2m Internal 8.5m x 3.8m Depth 1.3m to 1.8m</p>
---	---	---	--	---

Bedarra - PCG Twilight

## Saint-Remy, Saint-Louis & Saint-Grande Features

Wide entry with 550mm deep landing area with option to add air bubbles

2m x 1.86m and 980mm deep spa zone that can be heated separately from the pool

Cascading spillway between the spa and pool

450mm wide extended bench seat along one side of the pool

## Bedarra & Hayman Features

Full-width beach entry extending 1.3m and 300mm deep

Extended bench seat down one side

Safety ledge around two sides, providing a rest point for kids\*

Deep end entry and exit steps

\*Children should be supervised at all times

The Contemporary Series boasts sleek geometric lines with all the features of a modern pool design.

#### Contemporary Series Features

Wide entry steps offering an entrance point to both the shallow and deep end

Deep end corner swimout or steps, perfect for relaxation
