The Aqua Technics story

Aqua Technics has been manufacturing award-winning fibreglass pools for 48 years. We have the best range of technologically advanced swimming pools, manufactured in our purpose-built production facility, the largest in Western Australia.

Over forty eight years on we are still a family owned and operated company. Our pools are built to stand the test of time and are distributed all over WA, the Eastern states and many countries around the world. Our ultimate goal is to ensure families will enjoy their swimming pool and create a lifetime of happy memories.

WE MANUFACTURE THE VERY BEST FIBREGLASS POOL AVAILABLE ANYWHERE IN THE WORLD. BUILT TO LOOK BETTER AND LAST LONGER.

The Aqua Technics edge

GRAPHENE NANO TECHNOLOGY
Revolutionary patented process infusing graphene nano technology into every Aqua Technics pool. Built like no other, a Graphene Nano-Tech® pool is our strongest pool ever.

FADE RESISTANT
Aqua Technics pools have patented Pool ColourGuard® surface technology, which resists the effects of UV rays and chemicals, offering advanced fade-resistant protection.

QUALITY ASSURED
Certified to build to AS/NZS 1838:2021 under license BMP 520101. We are measured and tested by an authorised, independent auditor. Anyone can say they build to the Standard. For your peace of mind always ask for a license number. We also comply to the AS/NZS ISO 9001 Quality System.

LIFETIME WARRANTY
Our Extended Lifetime Structural Warranty is our commitment to providing extended warranties above those standard in the SPASA contract.

PRECISION MOULDS
New designs are built to exacting tolerances. The edge beams are true, the shapes geometrically perfect and the surface finish is without peer.

SUPERIOR STRENGTH
Full sized structural ribs, fully supported steps and bench seating and a wider edge beam mean the pool is independently structural and has no need for secondary engineering works.

SUPERIOR MATERIALS
All pools are manufactured using high performance, corrosion resistant, eco-friendly fibreglass with improved strength and stiffness. Our onsite gelcoat manufacturing facility means daily batching of materials for a better product. Only specialty materials are used - no general purpose products.

MADE IN WA
All pools are individually made to order to suit local conditions at our state-of-the-art Jandakot manufacturing facility, the largest pool production premises in WA.

Our purpose built manufacturing facility

Our world-class production facility has been purpose-built for the manufacture of fibreglass swimming pools. Here we can build a technologically superior product of the highest quality.

Along with our state-of-the-art facility, we can proudly boast to having our own in-house raw materials production division. This allows us to freshly batch our raw materials on a daily basis, which is extremely important in order to produce a superior quality product.

Each of our pools is manufactured in accordance with a Quality Management System as per the requirements of International Standard ISO 9001 and supplied to comply with AS/NZS 1838:2021 under license number BMP 520101. Obtaining this accreditation means we are measured and tested by an authorised, independent auditor and is not easily achieved. Any pool builder can say they build to, or better than, the Australian Standard. For your peace of mind, always ask for a license number. We also have International Council Code Accreditation ICC-ES.

OUR PROMISE TO YOU, THERE SIMPLY IS NO BETTER SWIMMING POOL.

Why we only build pools with 200mm edge beams

The design of the 200mm edge beam means the strength is engineered into the pool, making it structurally sound all by itself. Secondary engineering works are not required because the pool structure is built stronger and will last longer than any other.

**GRAPHENE
NANO-TECH**

BUILT like
no other pool

Pools made
STRONGER
than ever before!

Ground-breaking Graphene Nano-Tech®

ADVANCED TECHNOLOGY IN FIBREGLASS POOLS

Graphene Nano-Tech® is a revolutionary patented process infusing graphene nano technology in every Aqua Technics pool. Developed here in WA, over 4 years of research and development has been carried out to incorporate graphene into the composite layers of our pools, creating a totally new patented construction process that is the next generation of fibreglass pool technology.

30%
stronger

Graphene is 200 times stronger than steel & stronger than titanium, giving you our strongest pool ever

Increased strength & rigidity of the pool's structure

Higher impact & flexural strength

30%
lighter

Our new technology reduces weight while improving rigidity and flexural strength

Pools are stronger without being heavier

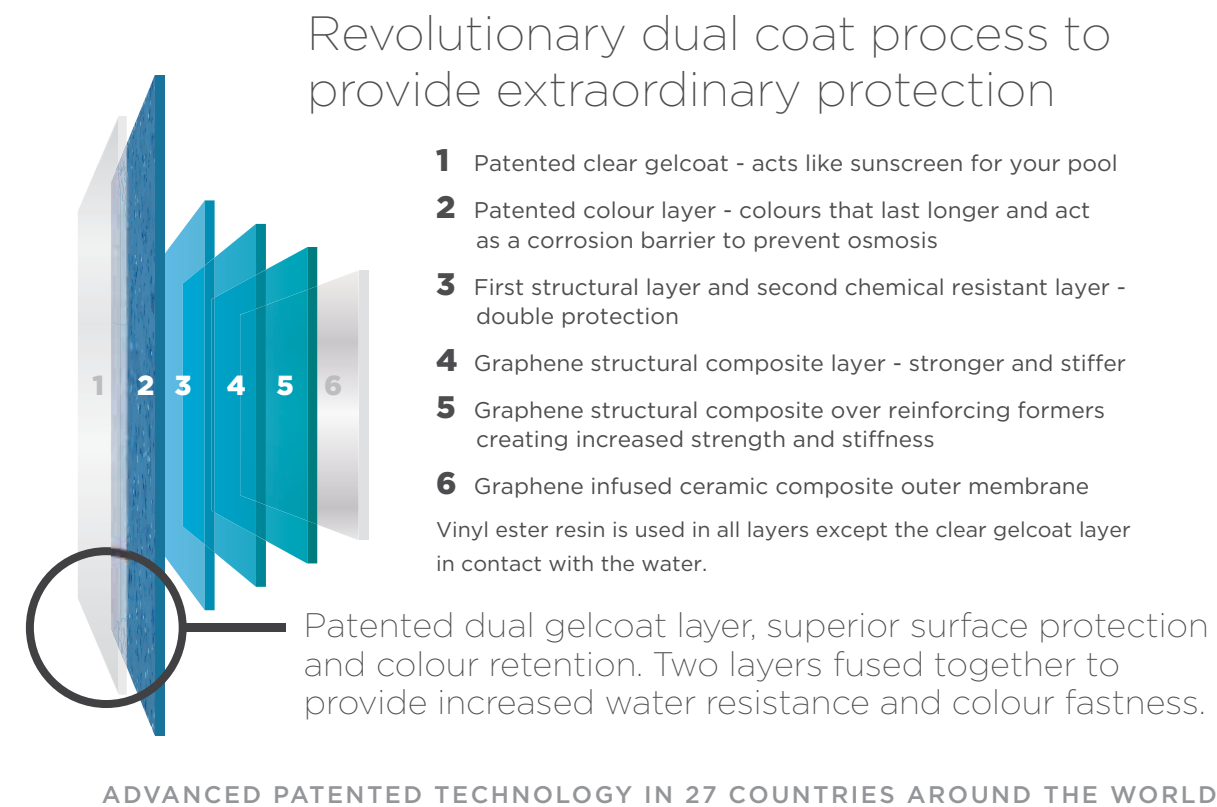

Lighter for transport & crane lifts

Higher
resistance

A Graphene Nano-Tech® pool has a higher resistance to water and moisture transpiration and chemical attack

Increased laminate durability

Improved corrosion barrier

The only dual surface protection system

Aqua Technics can offer you a patented surface protection system for fibreglass pools that resists the effects of ultra violet rays and chemicals. It's like sunscreen for your pool, protecting it from colour loss and weathering. Incorporating a specialised dual gelcoat system as part of the manufacturing process, two layers are merged to provide extraordinary surface protection.

With a brilliant, high gloss finish your pool will maintain its beautiful appearance thanks to the innovative and unique Pool ColourGuard® technology. We dare you to compare.

Aqua Technics is Australia's most awarded swimming pool company, having received numerous local, national and international Awards of Excellence. We have over 23 international awards - proof that the quality of our pools is recognised the world over. In 2019, 2020, 2021 and 2022 we were awarded Fibreglass Pool Builder of the Year at the SPASA Awards of Excellence.

The contemporary style of the Piazza Series will complement any outdoor area and not become dated in years to come.

Piazza Series Features

Wide seating ledge - running the length of the pool, perfect for taking a break and relaxing or splashing with the kids

Safety ledge on Siena and Torino - providing added safety and peace of mind for children learning to swim

Alto and Latina - deep plunge style pools perfect for courtyards

Uninterrupted swimming area - end to end swimming in the larger designs

Corner side entry steps - easy access in the shallow end.

Alto
4.5m x 2.75m
Depth 1.37m to 1.78m

Latina
4.5m x 3.5m
Depth 1.37m to 1.78m

Avellino
6m x 4m
Depth 1.1m to 1.78m

Palazzo
7m x 3.5m
Depth 1.1m to 1.78m

Valentina
8m x 4m
Depth 1.0m to 1.78m

Siena
9.5m x 4.45m
Depth 1.0m to 1.85m

Torino
11m x 4.45m
Depth 1.0m to 2.0m

Resort **SERIES**

Saint-Remy - Platinum

Enjoy an indulgent pool and spa combination in your own backyard with the Resort Series.

Resort Series Features

- Large entry zone with generous second step area
- 2.0m x 1.86m spa seats up to 6 adults with 2 recliner seats and bench seating
- Spillway between the spa and pool, with the water cascading into the pool
- Long 450mm wide bench seating
- Deep end step for easy exit from the pool
- Variable skimmer box location - flexibility to suit the position of water features

Tuscany Series Features

Unobtrusive, side-entry steps

Deep end swim-outs for entry, exit and relaxation

Ideal for swimming laps or family entertaining

Sleek and sophisticated, the Tuscany Series has been designed for more narrow spaces without compromising on features and style.

Tuscany **SERIES**

The Compact Series features the very latest in geometric pool designs created specifically to suit small spaces.

Compact Series Features

- Slimline design perfect for narrow spaces
- Unobtrusive side entry steps on both sides, allowing greater choice of pool position
- Extended second entry step that can be used for seating

Escape to paradise with the Villa Series and experience a luxurious hideaway in your own backyard with this stylish design.

Villa Series Features

Entry steps in the shallow end for easy access

Wider second entry step on the Paradiso, Sentosa, Terazza and Elysian creates a perfect relaxation zone

Paradiso and Sentosa feature slimline design

Elysian - Platinum

Paradiso
5.5m x 2.15m
Depth 1.05m to 1.6m

Sentosa
6.5m x 2.15m
Depth 1.05m to 1.75m

Istana
6.2m x 3.3m
Depth 1.2m to 1.68m

Terazza
7.3m x 3.3m
Depth 1.2m to 1.76m

Elysian
8.3m x 3.3m
Depth 1.09m to 1.76m

Villa **SERIES**

Innovation **SERIES**

Innovative design techniques bring you these stylish pool models that are exclusive to Aqua Technics.

Capricorn - Horizon

Innovation Series Features

- Stylish, curved side-entry step area
- Extended seating ledge running the length of the pool
- Optional spa jets for soothing hydrotherapy massage

- Centro Features**
- Seats up to 7 people
 - Continuous bench seating
 - 2 corner steps
- Rio**
2.2m x 1.8m
Depth 0.35m
- Rio Features**
- Kids wading pool
 - Ideal paddling area

Commercial **POOLS**

For as long as we have been installing our pools into the backyards of WA families, we have also been completing commercial projects, both big and small.

Our commercial division has installed pools all over Western Australia, from the very far north down to the Lord Forrest Hotel in the south-west and across to the east. If you have ever been to Cable Beach Resort in Broome you would have spent many an hour relaxing in their beautiful swimming pools, built by Aqua Technics Commercial.

Our commitment to quality in both design and workmanship was rewarded when we received the WA Pool of the Year award at the Swimming Pool and Spa Association Awards of Excellence. We also recently received local and national gold for our custom designed fibreglass pool at The Adnate Hotel located in the Perth CBD.

We have completed projects for the following applications:

- Residential complexes including apartments
- Mining sites
- Resorts and hotels
- Group accommodation facilities
- Purpose-built custom fibreglass designs

When you buy the very best pool there is, you want the very best landscaping and accessories to go with it.

Imagine finishing your new pool with stylish paving, planter boxes filled with your favourite plants, a soothing water feature and modern glass fencing together with advanced automatic pool equipment that works cleverly to reduce your pool maintenance and operating costs.

Aqua Technics can offer a complete pool and landscaping package with attention to every last detail. From recommendations and advice right through to installation. For all the extras, simply speak with one of our expert Sales & Design Consultants.

Aqua Technics can assist you with:

State-of-the-art pool pumps, filters and automatic cleaners

Pool heating including gas and electric
